Child Nutrition Programs

Annual Statistical Report

Percent of Students Eligible for Free and Reduced Price School Meals

School Year 2003 - 2004

Introduction

Free and reduced price meal eligibility data is reported by each school food authority annually. A school food authority is a school or school district that is responsible for operating a School Lunch Program and/or School Breakfast Program. The eligibility numbers and enrollment figures are for October of the current school year, as reported on the school's October Claim for Reimbursement.

For the purposes of the National School Lunch Program, "eligible" means that a student has submitted an application and been certified as qualifying for free or reduced price benefits based on the Family Size and Income Guidelines published by the United States Department of Agriculture. To be eligible for free meals, a family's income must be at or below 130% of the Federal poverty line. Families whose income falls between 130% and 185% of the federal poverty line qualify for reduced price meals. Eligibility determinations are made at the local level by the food service director, principal, or other person designated by the school administration.

The report for 2003-2004 is the first report using the new CNP Web on-line reporting system. The system has calculated the information for all schools in the system, even those that do not participate in the school lunch program. If a school participates only in the Special Milk Program the report shows only zeros. One school, Newark School, participates in breakfast but not lunch. Although the system does not calculate the free and reduced data for breakfast, the information for Newark is as follows:

	Free Lunch	Reduced Lunch	Enrollment	% Low Income
Newark School	22	1	50	46%

How the Report is organized:

The report is organized alphabetically by school food authority name. The schools within the school food authority are listed by building name, followed by the total for all of the schools in the school food authority (or school district.)

Column Headings

1. Building Name
2. Building Address
3. Grades included in the school lunch program
4. Number of students approved for free meals
5. Number of students approved for reduced price meals
6. School enrollment, as of October
7. Percent of students eligible for free and reduced price school meals
